## Special Pennant 2018 Edition

### Davo Launches 2018 Pennant Season in style

Could we have started the Pennant season in any better fashion?

Pennants is the reason that Bowling Clubs exist. Without Pennants there would be little rationale for Bowling Clubs to form and continue. Pennants gives meaning to our existence.

Last weekend's launch by two of the Club's Coaches – Dick Love and Jean Paviour-Smith – was as good as it could get.

In classic Coaching fashion, bowlers met in a lecture situation followed by "on the green" practice of the lessons just discussed.

**President Chris Jones introduces the session**

Dick brought all his years of successful bowling experience to the table and shared with us how to succeed in Pennants. Highlights of his presentation dealt with teamwork, individual roles within a team, team and individual behaviour and managing stress.

**Jean provides the computer expertise**

He was ably supported by Jean, who, encouraged by Zone 15 Coaching Academy Chairman David Cameron, has developed Power Point presentations, based on Bowls Australia's Competition Module and the work of many current and former great players and coaches, to support Coaches in their work.

**Dick presents**

We were fortunate at Davistown to get an early look at this presentation which is also being used by Rob Dixon in his work with the Norfolk Island Commonwealth Games team.

This material is available to all Davistown Club coaches and should make for better Coaching and better outcomes over time.

Given this confident and professional start to our season we should expect good results.

May the God of Bowls be with us!

**50 bowlers in learning mode**
